Si Pol

Tehran, Iran

March 2017 - March 2018

Tasks and Achievements

- Designed and implemented responsive websites using WordPress and plugins.
- Collaborated with teams to deliver SEO-optimized websites using Yoast SEO.

Projects

Asset Management System

For: MCI

December 2023

Built a unified system for managing company assets, integrating OpenStreetMap for precise asset mapping. Implemented network topology mapping for detailed visualization.

Improved decision-making through dynamic charts using Chart.js and Recharts.js.

Link: <https://github.com/erfan2220/Asset-Management/wiki>

Single Sign-On (SSO) System

For: MCI

August 2022

Created an SSO system for centralized user authentication using Keycloak.

Ensured secure token validation and refresh mechanisms every hour.

Developed a user panel displaying personalized applications based on user roles and permissions.

Link: <https://github.com/erfan2220/SSO-single-sign-on/wiki>

EvalueX (KPI Tracking and Notifications System)

For: MCI

November 2023

Developed a system for updating KPI data and notifying users about upcoming deadlines.

Designed a management dashboard for administrative oversight.

Enabled file attachments and three types of comments (general, system-generated, and administrative notes) for enhanced collaboration.

Link: <https://github.com/erfan2220/Evaluex/wiki>

ConfigX Management System

For: MCI

April 2022

Designed a dynamic system with React Router and Lazy Loading for enhanced performance.

Visualized traffic data with PieCharts and BarCharts.

Integrated Iranian maps for site and traffic visualization.
